

## Capacity you can count on.

Shipwell and Amazon Freight bring speed, scale, and confidence to your truckload strategy. In an industry where capacity is tight and time is tighter, finding the right carrier at the right price shouldn't be a struggle. That's why Shipwell has partnered with Amazon Freight, giving you direct access to one of the most reliable truckload networks in the country, right inside Shipwell's TMS.

### Integration Advantage for Shippers

- Instantly quote and book full truckload (FTL) shipments
- Tap into real-time Amazon Freight rates and availability
- Track loads from pickup to delivery, all within Shipwell
- Automate workflows to reduce manual intervention
- Gain full visibility into documents and invoice data

### Seamless Integration, Real Results

With Amazon Freight embedded in the Shipwell platform, setup is fast and quoting is instant. Once connected, shippers can treat Amazon Freight like any other carrier—and it's smart, fast, and always backed by real-time data.

### Driving Real Business Value

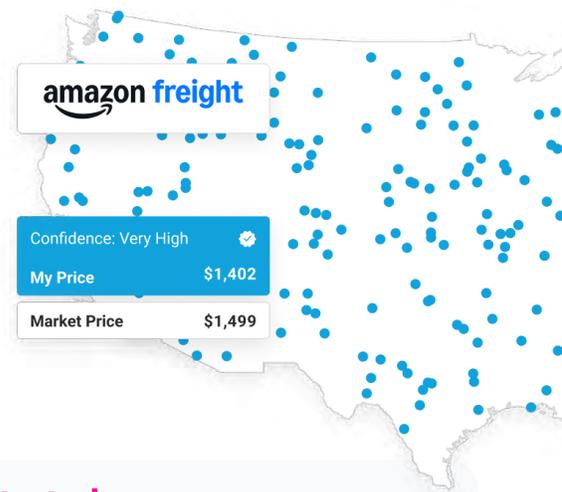

This integration is designed to help you move freight with greater speed, flexibility, and control:

- **More capacity, less stress:** Gain instant access to Amazon Freight's reliable truckload network—helping secure coverage faster, reduce tender rejections, and keep shipments on schedule.
- **Automation that works for you:** Eliminate the back-and-forth. With real-time rates and in-platform booking, your team can spend less time on manual tasks and more time on what matters—serving customers and optimizing operations.

### Smarter shipping that scales

Whether you're booking one load or 100, having access to Amazon Freight's trusted network—backed by real-time pricing and 24/7 support—means reliability, efficiency, and precision.

Ready to get started? If you're already a Shipwell customer, visit the Integration Marketplace in your dashboard and connect Amazon Freight today. Not on Shipwell yet? Let's change that.

### How to Get Started

1. Sign up for an Amazon Freight account at [freight.amazon.com/signup](https://freight.amazon.com/signup)
  - If you already have an Amazon Freight account, skip to step four
2. Select **Create your Amazon account** and follow the prompts to enter your name, email and password to be associated with your new account
3. Enter your company information in the Company Profile Setup page (make sure it matches your W-9 records)
4. In Shipwell, open the Integration Marketplace and click **Connect** under Amazon Freight
5. Select **Login with Amazon** and complete the authorization steps
6. Once connected, you'll return to Shipwell with a green checkmark confirming the integration—Amazon Freight is now ready to use.

### What Sets Amazon Freight Apart

- 70,000+ trailers & carriers across the continental U.S.
- Backed by Amazon's logistics & routing technology
- 24/7 support and full shipment visibility
- Rigorous safety protocols and culture of continuous innovation
- Network optimization to maximize tours and reduce empty miles, which contributes to sustainability
