

Native TMS Integration Purpose-Built for Infor

Extend your Infor M3 ERP with comprehensive, multimodal transportation management without custom development. As an official member of the **Infor Partner Network**, Shipwell delivers the only native TMS integration that synchronizes seamlessly within the Infor CloudSuite environment.

Core Capabilities

Shipment Planning & Execution

- Multi-modal, multi-stop shipment planning across truckload, LTL, parcel, intermodal, and specialized freight
- Load consolidation and optimization to maximize transportation efficiency
- Dynamic routing guide management that adapts to real-time conditions and carrier performance

Visibility & Control

- Native tracking and exception management integrated directly within Infor CloudSuite
- Real-time status updates synched to M3 delivery records
- Proactive alerts for delays, temperature deviations, compliance issues, or delivery exceptions

Carrier Management

- Automated carrier selection based on performance, cost, and service requirements
- Specialized carrier networks for temperature-controlled, hazmat, oversized, and time-sensitive freight
- Performance analytics to optimize carrier mix

Benefits

Streamlined Implementation to Faster ROI

Enterprise-ready data mapping and automated synchronization eliminate custom development time.

Reduced IT Burden

Field mapping, order synchronization, and status updates are handled through proven, pre-built processes.

Automated Data Synchronization

Bi-directional updates eliminate manual entry, reduce errors, and ensure both systems remain current.

AI-Driven Optimization

Control freight spend and improve on-time delivery with AI that recommends optimal carriers, routes, and consolidation opportunities.

End-to-End Supply Chain Visibility

Real-time tracking, proactive exception management, and automated alerts keep shipments on schedule and stakeholders informed across the entire logistics lifecycle.

Customer Story

For Custom Truck One Source, finding a user-friendly and sustainable TMS solution was essential to support their growth. Shipwell's seamless integration with Infor delivered immediate operational improvements and \$450,000 in annual efficiency savings.

"I spent a significant portion of my day managing and paying invoices. Now, thanks to the visibility provided by Shipwell... our invoicing process is now automated, audited, and paid with minimal oversight, resulting in a major efficiency gain."

- Philip Werkowitch

Freight Logistics Manager, Custom Truck One Source

Challenges Solved

Limited Supply Chain Visibility

Shipwell provides end-to-end tracking, proactive exception management, and automated alerts—all within Infor CloudSuite—without manual status checks.

Industry-Specific Compliance Risks

Shipwell delivers temperature monitoring, compliance tracking, and dimensional freight coordination that address unique transportation challenges across verticals.

Lengthy Custom Development Cycles

Shipwell's streamlined integration includes data mapping, status synchronization, and bi-directional updates out of the box, delivering value in just weeks.

Manual Processes and Data Silos

Shipwell automates data synchronization between M3 and your logistics operations, reducing errors and freeing teams for strategic work.

How Shipwell Integrates

Industries We Serve

- Fashion & Retail:** Consolidate deliveries, optimize carrier selection, and maintain real-time visibility across complex distribution networks
- Food & Beverage:** Manage temperature-controlled shipments with continuous monitoring, compliance tracking, and automated alerts for excursions or delays
- Chemicals:** Handle hazmat freight with automated documentation, regulatory compliance checks, and specialized carrier management

- Distribution:** Coordinate high-volume, multi-modal shipments with tight delivery windows and dynamic routing requirements
- Industrial Manufacturing:** Execute complex, multi-stop shipments for oversized or specialized freight with capacity planning and route optimization
- Equipment:** Manage dimensional challenges and heavy freight with real-time tracking that updates M3 delivery status automatically

See Shipwell In Action

Stop choosing between powerful ERP capabilities and modern transportation management. Shipwell's native M3 integration delivers AI-powered logistics optimization, real-time visibility, and automated carrier management within the Infor CloudSuite environment your team already knows.
